| CPU Cache Size:                                        | 12 MB                                                                         |
| Chipset:                                               | System on Chip (SoC)                                                          |
| Quantity of Mainboards<br>Supported:                   | 1                                                                             |
| Performance-cores Quantity:                            | 4                                                                             |
| Efficient-cores Quantity:                              | 8                                                                             |
| Memory Type:                                           | DDR4 SDRAM                                                                    |
| Memory Form Factor:                                    | SODIMM 260-pin                                                                |
| Provides Error Checking Method:                        | non-ECC                                                                       |
| Maximum Installable System<br>Memory Storage Capacity: | 64 GB                                                                         |
| Memory Slot Total Quantity:                            | 2                                                                             |
| Memory Features:                                       | Two DDR Channels                                                              |
| Plug-in-card:                                          | <b>Wi-Fi Controller:</b><br><b>Intel Wi-Fi 6E AX211 M.2</b><br><b>(Key E)</b> |
| Integrated:                                            |                                                                               |

**Storage Controller:**  
**PCIe NVMe 4.0 x4 (M.2 22x80**  
**(Key M))**  
**Storage Controller:**  
**PCIeSATA (M.2 22x42 (Key B))**
